

## MEDICINAL PRODUCTS (YEAR 1)

NO.	ITEM
A.	<b>ANAESTHESIA, ANTIDOTES, CONTROLLED DRUG, MUSCULOSKELETAL, NEUROMUSCULAR &amp; NON-STEROIDAL ANTI-INFLAMMATORY DRUG (NSAID)</b>
1	Allopurinol 100mg oral solid preparation preferably scored tablet
2	Allopurinol 300mg oral solid preparation preferably scored tablet
3	Atracurium Besylate injection 10mg/ml in 2.5ml
4	Baclofen 10mg oral solid preparation preferably scored tablet
5	Baclofen 1mg/ml oral liquid preparation (preferably alcohol-free)
6	Bupivacaine hydrochloride anhydrous injection 5mg/ml (0.5%) per unit containing glucose 80mg/ml as Marcaine Heavy© or its equivalent
7	Colchicine 500mcg oral solid preparation preferably tablet
8	Fentanyl (as citrate) 100mcg/2ml Injection
9	Flumazenil injection 100mcg/ml x 5ml
10	Ibuprofen 200mg oral solid preparation preferably scored tablet
11	Lignocaine (Lidocaine) 2% topical preparation in gel form
12	Lignocaine Hydrochloride 5% & Phenylephrine Hydrochloride 0.5% Nasal Spray (with nozzles)
13	Mefenamic acid 250mg oral solid preparation preferably scored tablet
14	Methylene blue 10mg/ml (1%) injection
15	Morphine Sulfate 10mg/ml Injection in 1ml (preservative-free) suitable for intravenous, epidural, or intrathecal use
16	Orphenadrine 35mg and Paracetamol 450mg oral solid preparation preferably scored tablet as Norgesic® tablet or its equivalent
17	Paracetamol 250mg/5mL Oral Liquid Preparation (Preferably Alcohol-free)
18	Paracetamol 500mg oral solid preparation preferably scored tablet
19	Paracetamol injection 1g/100ml
20	Pethidine (as hydrochloride) 50mg/ml Injection in 1ml
21	Pethidine 100mg/2ml Injection in 2ml
22	Propofol injection 10mg/ml x 20ml
23	Pyridostigmine Bromide 10mg oral solid preparation preferably scored tablet
24	Pyridostigmine Bromide 60mg oral solid preparation preferably scored tablet
25	Rocuronium bromide 10mg/ml injection
26	Ropinirole 250mcg oral solid preparation preferably scored tablet

27	Ropivacaine Hydrochloride 2mg/ml infusion (preferably 100ml to 200ml)
28	Tramadol 50mg oral solid preparation preferably scored tablet
29	Tramadol 50mg/ml injection
<b>B.</b>	<b>ANTI-INFECTIVE DRUGS &amp; ANTISEPTIC</b>
30	Amoxicillin (as trihydrate) 250mg oral solid preparation preferably scored tablet
31	Acyclovir 400mg oral solid preparation preferably scored tablet
32	Acyclovir intravenous infusion 250mg per unit in the form of powder for reconstitution
33	Antiseptic hand rub (contains Alcohol 70-90%)
34	Antiseptic hand rub for travelling personnel (contains Alcohol 70-90%)
35	Ceftazidime (as Pentahydrate) injection 1gm
36	Cefuroxime (as sodium salt) injection 750mg
37	Cefuroxime 125mg/5ml oral powder preparation for reconstitution (volume of liquid for reconstitution must be stated on the bottle)
38	Chlorhexidine gluconate 4% solution as Hibiscrub or its equivalent
39	Chlorhexidine irrigation solution 0.1% sterile for single use
40	Co-amoxiclav 1000/200 Injection [Amoxicillin 1000mg (as sodium salt) and Clavulanic Acid 200mg (as Potassium Salt)]
41	Co-amoxiclav 500/100 injection [Amoxicillin 500mg (as sodium salt) and clavulanic acid 100mg (as potassium salt)]
42	Co-amoxiclav 500/125 (Amoxicillin 500mg as Trihydrate, Clavulanic Acid 125mg as Potassium Salt) oral solid preparation preferably tablet
43	Flucloxacillin 250mg oral solid preparation preferably tablet
44	Fluconazole injection 2mg/ml x 50ml
45	Isoniazid 100mg oral solid preparation preferably scored tablet
46	Isoniazid 300mg oral solid preparation preferably tablet
47	Ortho-phthalaldehyde disinfectant solution as Cidex OPA® or its equivalent preferably with test strips
48	Quinine Sulphate 300mg oral solid preparation preferably tablet
49	Ribavirin 200mg oral solid preparation preferably tablet
50	Streptomycin injection 1g
51	Sultamicillin 375mg oral solid preparation preferably tablet
52	Tenofovir Disoproxil 300mg oral solid preparation preferably tablet
<b>C.</b>	<b>ANTIHISTAMINE &amp; RESPIRATORY DRUGS</b>
53	Beractant (bovine lung extract) injection providing phospholipids 25mg/ml with lipids and proteins
54	Bromhexine hydrochloride 4mg/5ml oral liquid preparation preferably (preferably alcohol-free)

55	Budesonide 100mcg/dose oral inhalation preparation preferably in an appropriate, easy to use delivery device
56	Chlorpheniramine maleate 2mg/5ml oral liquid preparation (alcohol-free)
57	Dequalinium 250mcg oral solid preparation preferably chewable lozenges
58	Dry Powder for inhalation containing Fluticasone Propionate 500mcg and Salmeterol (as Xinafoate) 50mcg per dose Accuhaler as Seretide 50/500 Accuhaler or its equivalent
59	Fluticasone propionate aqueous nasal spray 50mcg/dose
60	Inhalation containing Fluticasone Propionate 125mcg and Salmeterol (as Xinafoate) 25mcg per dose evohaler as Seretide 25/125 Evohaler or its equivalent
61	Inhalation containing Fluticasone Propionate 250mcg and Salmeterol (as Xinafoate) 25mcg per dose evohaler as Seretide 25/250 Evohaler or its equivalent
62	Loratadine 10mg oral solid preparation preferably scored tablet
63	Montelukast (as sodium salt) 10mg oral solid preparation preferably tablet
64	Oxymetazoline 0.01% nasal solution preparation
65	Oxymetazoline Hydrochloride 0.025% nasal spray/drop
66	Oxymetazoline Hydrochloride 0.05% nasal spray/drop
67	Per 5ml oral liquid preparation containing Diphenhydramine 14mg, Ammonium chloride 135mg and Sodium citrate 57mg as Benadryl® or its equivalent
68	Per 5ml Oral liquid preparation containing Triprolidine Hydrochloride 1.25mg, Pseudoephedrine Hydrochloride 30mg as Actifed® or its equivalent
69	Pseudoephedrine 60mg in combination with Triprolidine 2.5mg oral solid preparation preferably scored tablet
70	Salbutamol 5mg/ml (0.5% w/v) respiratory solution
71	Theophylline Modified Release 200mg oral solid preparation preferably tablet
<b>D.</b>	<b>BONE, CORTICOSTEROIDS, HORMONE, OBSTETRICS &amp; GYNAECOLOGY DRUGS</b>
72	Alprostadil injection 500mcg/ml per unit
73	Alendronic acid 70mg once-weekly-dose oral solid preparation preferably tablet
74	Carboprost (as tromethamine) injection 250mcg/ml x 1ml preferably non cold chain item
75	Chlorhexidine gluconate 1% obstetric cream
76	Conjugated oestrogen vaginal cream 625mcg/g or 0.0625% preferably with applicator
77	Dinoprostone 3mg vaginal tablet
78	Ergometrine Maleate 0.5mg and Oxytocin Synthetic 5iu per ml Injection as Syntometrine Injection or its equivalent
79	Hydrocortisone (as sodium succinate) injection 100mg
80	Hydrocortisone 20mg oral solid preparation preferably scored tablet
81	Levonorgestrel intrauterine system 20mcg/24 hours
82	Medroxyprogesterone Acetate 5mg oral solid preparation preferably scored tablet
83	Oxytocin (synthetic) injection 10u/ml

84	Prednisolone 5mg enteric coated oral solid preparation preferably tablet
85	Prednisolone 5mg oral solid preparation preferably scored tablet
86	Zoledronic acid injection 800mcg/ml x 5ml (4mg/5ml vial)
<b>E.</b>	<b>CARDIOVASCULAR &amp; HYPERLIPIDEMIA DRUGS</b>
87	Acetylsalicylic Acid (or Aspirin) Enteric Coated 100mg Oral Solid Preparation Preferably Tablet
88	Amiodarone 200mg oral solid preparation preferably tablet
89	Amiodarone injection 50mg/ml x 3ml
90	Amlodipine (as besylate) 10mg oral solid preparation preferably scored tablet
91	Amlodipine (as besylate) 5mg oral solid preparation preferably scored tablet
92	Atenolol 100mg oral solid preparation preferably scored tablet
93	Atenolol 50mg oral solid preparation preferably tablet
94	Atorvastatin 10mg oral solid preparation preferably scored tablet
95	Atorvastatin calcium 20mg oral solid preparation preferably scored tablet
96	Bezafibrate 200mg oral solid preparation preferably tablet
97	Bisoprolol 5mg oral solid preparation preferably scored tablet
98	Candesartan 16mg oral solid preparation preferably scored tablet
99	Carvedilol 12.5mg oral solid preparation preferably scored tablet
100	Carvedilol 6.25mg oral solid preparation preferably scored tablet
101	Clopidogrel (as hydrogen sulphate) 75mg oral solid preparation preferably scored tablet
102	Digoxin 0.0625mg oral solid preparation preferably tablet
103	Dobutamine injection 12.5mg/ml x 20ml
104	Enalapril maleate 5mg oral solid preparation preferably scored tablet
105	Enalapril maleate 10mg oral solid preparation preferably scored tablet
106	Esmolol hydrochloride injection 10mg/ml x 10ml
107	Ezetimibe 10mg oral solid preparation preferably scored tablet
108	Fixed Dose Combination of Atenolol 100mg and Chlorthalidone 25mg Oral Solid preparation preferably tablet either as Tenoretic 100/25 or its equivalent
109	Frusemide injection 10mg/ml x 2ml
110	Furosemide (Frusemide) 40mg oral solid preparation preferably scored tablet
111	Gemfibrozil 600mg oral solid preparation preferably scored tablet
112	Heparinized saline injection 10iu/ml x 5ml

113	Indapamide modified release 1.5mg oral solid preparation preferably tablet
114	Isosorbide Mononitrate Modified Release 60mg oral solid preparation preferably tablet in a matrix form that can be halved or split
115	Labetalol (as Hydrochloride) Injection 5mg/ml in 5ml
116	Labetalol Hydrochloride 100mg oral solid preparation preferably tablet
117	Low Molecular Weight Heparin Injection 2,500iu-4000iu in prefilled syringe preferably containing dalteparin sodium as Fragmin® or its equivalent
118	Low Molecular Weight Heparin Injection 5,000iu-8000iu in prefilled syringe preferably containing dalteparin sodium as Fragmin® or its equivalent
119	Methyldopa 250mg oral solid preparation preferably tablet
120	Nifedipine modified release 30mg oral solid preparation preferably tablet
121	Pentoxifylline SR 400mg oral solid preparation preferably tablet
122	Prazosin 1mg oral solid preparation preferably tablet
123	Prazosin 2mg oral solid preparation preferably tablet
124	Rosuvastatin 10mg Oral Solid Preparation Preferably Scored Tablet
125	Rosuvastatin 20mg Oral Solid Preparation Preferably Scored Tablet
126	Simvastatin 10mg oral solid preparation preferably scored tablet
127	Sotalol 80mg oral solid preparation preferably scored tablet
128	Spironolactone 100mg oral solid preparation preferably scored tablet
<b>F.</b>	<b>CENTRAL NERVOUS SYSTEM</b>
129	Alprazolam 0.5mg oral solid preparation preferably tablet
130	Amitriptyline 10mg oral solid preparation preferably scored tablet
131	Caffeine citrate injection 5mg/ml
132	Carbamazepine 100mg/5ml oral liquid preparation
133	Carbamazepine 200mg modified release oral solid preparation preferably tablet in a matrix form that can be halved or split
134	Carbamazepine 400mg modified release oral solid preparation preferably tablet in a matrix form that can be halved or split
135	Carbidopa 25mg in combination with Levodopa 100mg oral solid preparation preferably scored tablet
136	Clonazepam 500mcg oral solid preparation preferably scored tablet
137	Clonazepam 2mg oral solid preparation preferably scored tablet
138	Clozapine 100mg oral solid preparation preferably scored tablet
139	Donepezil 5mg Oral Solid Preparation Preferably Tablet
140	Entacapone 200mg oral preparation preferably scored tablet
141	Flunarizine 5mg oral solid preparation preferably scored tablet

142	Flupenthixol Decanoate injection (oily) 20mg/ml x 1mls
143	Gabapentin 300mg oral solid preparation preferably scored tablet
144	Levetiracetam 250mg oral solid preparation preferably scored tablet
145	Levetiracetam 500mg oral solid preparation preferably scored tablet
146	Midazolam 5mg/mL Injection x 3mL
147	Phenytoin Sodium 100mg oral solid preparation preferably scored tablet
148	Quetiapine (as fumarate) 200mg oral solid preparation preferably scored tablet
149	Tetrabenazine 25mg oral solid preparation preferably scored tablet
150	Zolpidem 10mg oral solid preparation preferably scored tablet
<b>G.</b>	<b>CYTOTOXIC &amp; IMMUNE SYSTEM</b>
151	Anastrozole 1mg oral solid preparation preferably scored tablet
152	Bicalutamide 50mg oral solid preparation preferably scored tablet
153	Ciclosporin 100mg/ml oral liquid preparation
154	Ciclosporin 25mg oral solid preparation preferably tablet
155	Cyclophosphamide 50mg oral preparation preferably tablet
156	Dimethyl fumarate 240mg oral solid preparation preferably tablet as Tecfidera 240mg or its equivalent
157	Etanercept injection 25mg preferably in a prefilled syringe
158	Everolimus 250mcg Oral Solid Preparation Preferably Tablet
159	Everolimus 750mcg Oral Solid Preparation Preferably Tablet
160	Gefitinib 250mg Oral Solid Preparation Preferably Tablet
161	Golimumab 50mg preferably in prefilled pen
162	Infliximab Intravenous Infusion Powder for Reconstitution 100mg/vial as Remicade© or its equivalent
163	Lenalidomide 10mg oral solid preparation preferably scored tablet
164	Methotrexate 2.5mg oral preparation preferably tablet
165	Mercaptopurine 50mg oral solid preparation preferably tablet
166	Mycophenolate Mofetil 500mg oral solid preparation preferably tablet
167	Nilotinib 150mg Oral Solid Preparation Preferably Scored Tablet
168	Nilotinib 200mg oral solid preparation preferably scored tablet
169	Normal Immunoglobulin (Human) Injection For Intravenous Use 10gm
170	Normal Immunoglobulin (Human) Injection For Intravenous Use 5gm

171	Ruxolitinib (as phosphate) 15mg oral solid preparation preferably scored tablet
172	Ruxolitinib (as phosphate) 5mg oral solid preparation preferably scored tablet
173	Tacrolimus (as monohydrate) 500mcg oral solid preparation preferably scored tablet
<b>H.</b>	<b>ELECTROLYTES, VITAMINS &amp; BLOOD PRODUCTS</b>
174	Deferasirox 125mg oral solid preparation preferably dispersible tablet or tablet for oral suspension
175	Deferasirox 500mg Oral Solid Preparation Preferably Dispersible tablet or tablet for oral suspension
176	Epoetin Alfa (recombinant human erythropoetin) prefilled injection 2000iu as Eprex ®or its equivalent
177	Epoetin Alfa (recombinant human erythropoetin) prefilled injection 4000iu as Eprex ®or its equivalent
178	Epoetin Beta (Recombinant Human Erythropoetins) 2000iu prefilled injection
179	Epoetin Beta (Recombinant Human Erythropoetins) 4,000iu prefilled injection
180	Epoetin Beta prefilled (Recombinant Human Erythropoetins) 30,000iu prefilled Injection
181	Folic acid 5mg oral solid preparation preferably scored tablet
182	Glucose 4.0% in Sodium Chloride 0.18% IV Infusion x 500ml
183	Glucose 50% injection x 20ml
184	Magnesium Sulfate injection 49.3% in 5ml
185	Mercaptamine (a.k.a Cysteamine) 150mg oral preparation preferably scored tablet
186	Multivitamin Oral Liquid Preparation for infant with measuring dropper containing per mL vitamin A 1,500iu, vitamin D3 400iu, and Taurine 15mg as Appeton® Multivitamin Plus Infant Drop or its equivalent (preferably alcohol-free)
187	Parenteral Nutritional Preparation for Peripheral Line as Nutripack Peri 40/80 or its equivalent in one pack (1900ml to 2500ml)
188	Phosphate for intravenous infusion containing 20mmol/20ml of phosphate as glycophos© or its equivalent
189	Phytomenadione (Vitamin K1) paediatrics injection 2mg/0.2ml
190	Sevelamer (as Carbonate) 800mg oral preparation preferably scored tablet
191	Sodium Bicarbonate injection 8.4% x 50ml
192	Sodium Chloride 0.9% Irrigation Bag x 3L
193	Tranexamic acid 500mg oral solid preparation preferably scored tablet
194	Tranexamic acid injection 100mg/ml x 5ml
195	Water for Injection x 500ml
<b>I.</b>	<b>ENDOCRINE</b>
196	Acarbose 100mg oral solid preparation preferably scored tablet
197	Acarbose 50mg oral solid preparation preferably scored tablet

198	Antidiabetic agent* for once-daily-dose; oral solid preparation preferably scored tablet containing a dipeptidyl peptidase 4 (DPP-4) inhibitor such as Sitagliptin 100mg tablet , Linagliptin 5mg tablet or other agent within the same pharmacodynamic class * Antidiabetic agent with the following characteristics: 1. Belonging to the pharmacodynamics class – Dipeptidyl peptidase 4 inhibitors such as linagliptin or sitagliptin 2. Once daily dosing posology 3. With proven additional benefits e.g. cardiac output
199	Biphasic Isophane Insulin (Human) Injection 30% Soluble, 70% Isophane in 100 Units/mL
200	Cinacalcet 25mg oral solid preparation preferably tablet
201	Goserelin implant 10.8mg/syringe
202	Insulin Aspart Biphasic 30/70 (30% Insulin Aspart and 70% Insulin Aspart Protamine) 100iu/ml injection in prefilled disposable injection device as Novomix 30 flexpen x 3ml or its equivalent with compatible needles according to the number of doses required for each patient
203	Insulin Isophane 100 IU/mL Injection as Insulatard HM Penfill® 100iu/ml or its equivalent with compatible needles according to the number of doses required for each patient
204	Insulin Soluble 100 IU/mL Penfill Injection as Actrapid HM Penfill 100iu/ml or its equivalent with compatible needles according to the number of doses required for each patient
205	Levothyroxine 50mcg oral solid preparation preferably scored tablet
206	Sildenafil 50mg oral solid preparation preferably tablet
<b>J.</b>	<b>EYE</b>
207	Amethocaine Hydrochloride eye drop 1% Minims or for single use
208	Brimonidine Tartrate 0.15% eye drop
209	Chloramphenicol 1% eye ointment
210	Fluorometholone 0.1% Eye Drop
211	Gentamycin (as sulfate) 0.3% eye drop
212	Hypromellose 0.3% and Dextran 70 x 0.1% eye drop as Tears Naturale® or its equivalent
213	Latanoprost eye drop 0.005%
214	Travoprost 40mcg/ml eye drop
<b>K.</b>	<b>GASTROINTESTINAL, ANTIEMETIC &amp; UROLOGICALS</b>
215	Bisacodyl suppository 10mg
216	Cyclizine lactate injection 50mg/ML
217	Domperidone 1mg/ml oral liquid preparation
218	Glycopyrrolate 0.2mg/ml injection
219	Hyoscine N Butyl Bromide Injection 20mg/ml x 1ml
220	Metoclopramide 10mg oral solid preparation preferably scored tablet
221	Omeprazole injection 40mg powder for solution for intravenous infusion (with shelf life of at least 12 hours after reconstitution)
222	Ondansetron 2mg/ml Injection x 2ml
223	Ondansetron 2mg/ml Injection x 4ml

224	Ondansetron 8mg oral solid preparation preferably scored tablet
225	Prochlorperazine injection 12.5mg/ml
226	Psyllium Hydrophillic Mucilloid (Regular Flavour) as Metamucil Powder or its equivalent
227	Sulphasalazine 500mg oral solid preparation preferably Enteric Coated & scored tablet
228	Tolterodine modified release 4mg oral solid preparation preferably tablet
<b>L.</b>	<b>SKIN &amp; RECTAL DRUGS</b>
229	Acitretin 10mg oral solid preparation preferably scored tablet
230	Hydrocortisone cream 1%
231	Oral gel for use in pain relief of mouth ulcers and infant teething containing approximately 9% choline salicylate as main ingredient
232	Silver sulphadiazine 1% (sterile until open and preservative free) cream x 50 grams
233	Sterile Lubricating Gel - Water Soluble as KY Jelly or its equivalent
234	Triamcinolone acetoneide 1mg in combination with Neomycin 2.5mg, Gramicidin 250mcg and Nystatin 100,000iu per gram as Kenacomb© ointment or its equivalent
235	White Soft Paraffin BP
236	Zinc Oxide 10.75%, Balsam Peru 1.88%, Benzyl Benzoate 1.25% in combination as Anusol© ointment or its equivalent preferably with all the above ingredients within +/- 10% of the stated strengths
<b>M.</b>	<b>VACCINES</b>
237	6 in 1 DTaPHibHepB-IPV combination vaccine containing Diphtheria vaccine (minimum of $\geq 30$ iu), Tetanus vaccine (minimum of $\geq 40$ iu), Acellular Pertussis vaccine (minimum of inclusion of $\geq 3$ Pertussis component i.e. Pertussis Toxoid, Pertactin and Filamentous Hemagglutinin), Haemophilus Influenza Type B vaccine, Inactivated Polio vaccine and Hepatitis B vaccine (Dose of 10mcg)
238	Adsorbed Tetanus Toxoid Vaccine (single dose)
239	Bacillus Calmette Guerin Vaccine (BCG) Live Attenuated (Freeze Dried) Intradermal Injection
240	Hepatitis B vaccine (recombinant) 10mcg
241	Measles, Mumps and Rubella virus vaccine (Live)
242	Meningococcal Polysaccharide A, C, W 135 and Y conjugate Vaccine (preferably porcine free) x single dose
243	Pneumococcal polysaccharide conjugated (adsorbed) vaccine (for infant & child) preferably with most serotype coverage as Prevenar or its equivalent
244	Rabies Immunoglobulin (Human) injection 300iu/2ml
245	Tuberculin PPD injection for Mantoux test
246	Varicella Zoster Immunoglobulin (Human) Injection 250mg
